Summary:

the first test/document seems to be OK.

The second test/document, the program did not affect correctly the CMR document (addresses) for the customer EX40109602.

I just fixed the program error; it was a typo.

May you please reverse the second document? I just cancelled it in Meridian.

F30F6E14-BA01-0C34-DFA9-4EDE2B192A53} for customer # EX4010962

Following the test details.

FIRST TEST

{3D8ADAC8-A6D1-2223-44F5-D765A73368C0} for customer # EX4010961
